RESTORED TO HEALTH

BY THE USE OF

Ayer's Sarsaparilla

Mrs. M. A. Cumming, of Yarraville, Victoria, Australia, says:

"About a year ago, I had a severe attack of Influenza, which left me very weak, without energy, appetite, or interest in life. Obtaining little or no relief from doctors, or from the many remedies recommended to me, I finally tried Ayer's Sarsaparilla, and from that time, I began to gain health and strength."

I continued the treatment until fully recovered, and now have very great pleasure in telling my friends of the merits of Ayer's Sarsaparilla, and the happy results of its use. I consider it the best blood-purifier known."

Ayer's Sarsaparilla

Has cured others, will cure you.

Made by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

Hollister Drug Co., L'd.

THE LEGISLATURE.

THE SENATE INDULGES IN A DISCUSSION ON HOGS.

The Senate Finance Committee Present an Important Report on the Cable Bill—House Notes.

THIRTY-SECOND DAY, JULY 23RD.

THE SENATE.

The Senate was called to order at 10 a.m. and the usual preliminaries had. Senators Brown, Netley and Baldwin were not in their accustomed seats.

Senator Waterhouse from the Finance Committee presented the following report on the cable bill:

"Your Committee to whom was referred Senate Bill No. 12 entitled 'An Act to facilitate the construction and maintenance of telegraph cables in the Pacific' report that they have given it their careful consideration and recommend that it pass without amendment."

The Committee are also of the opinion that the government should take immediate action under such Act when passed, and urge that the sentiment of the Senate be expressed to that effect, by resolution or other appropriate means.

The importance to Hawaii of cable communication with the outer world cannot be overestimated, and no stone should be left unturned by us that can possibly facilitate progress toward securing it. There are many people and governments interested in the subject, but there is little exact knowledge of probable cost and of the plans by which the enterprise shall be carried out. During the recent debates in Congress upon the subject, the estimate of cost used by different members varied from \$1,500,000 to \$5,000,000.

Exact knowledge is essential to action. Hawaii cannot, unaided, build and operate the cable, but it can, unaided, secure all necessary information as to exactly what is required and a close approximation to its cost; formulate plans and methods of carrying out the project, and submit them to other governments for consideration; continually press the consideration of the subject; and contribute a sufficient amount of financial assistance to make such contribution a material feature of the enterprise.

Agitation of the subject and the securing of definite knowledge should be the watchword of Hawaii, and if it is done systematically and intelligently, your committee are of the opinion that they will lead to no distant success.

In the line of disseminating information on the subject, the committee recommend that the two reports by Lorin A. Thurston to the Foreign Office upon this subject, be published, as they contain a large amount of information not elsewhere available, except from scattered sources.

On motion it was ordered that Minister Thurston's reports be printed under the supervision of the Minister of Foreign Affairs, and the report of the committee was tabled to be considered with the bill.

The Judiciary Committee recommended that the act to extend the time of saloon licenses be laid upon the table, as being class legislation. The report was laid on the table to be considered with the bill.

Senator Baldwin arrived and took his seat.

Senator Lyman stated that Senator Waterhouse's Joint Resolution on the evils of the liquor

traffic had been presented to the President for his signature.

Attorney-General Smith presented a Joint Resolution in regard to the payment of the Labor Commission as agreed upon yesterday. The resolution was adopted.

House Bill No. 12, to allow the withdrawal of low grade kerosene oil from the Custom House, came up on the order of the day.

The Attorney-General read an amendment to the bill which was ordered printed. The amended bill allows low grade oil to be imported solely for the purpose of generating power and not for household purposes.

House bill 15 relating to the inspection of imported animals came up on its first reading and passed. Under suspension of the rules the bill came up on its second reading and Senator Waterhouse moved that the bill be laid upon the table. Lost.

Senator Rice said the raising of stock and hogs was increasing in the islands and that he believed in encouraging home industries. All the diseases among stock here came from imported animals which had not been properly inspected.

Senator Baldwin tried to get the bill referred to the printing committee but failed.

The bill was then proposed to be read section by section, but at the conclusion of the first Senator Rice moved that the bill be indefinitely postponed.

Senator Baldwin moved to amend by referring to the Committee on Commerce. Lost.

The bill was indefinitely postponed by a vote of 9 to 3.

Section 3 of the Cable Bill came up next, together with the report of the Finance Committee thereon. The committee recommended that the section pass as in the bill and a motion to that effect passed. The section relates to issuing bonds, guaranteeing interest thereon, etc.

The bill then passed its second reading and to engrossment.

The Senate then adjourned to 10 a.m. Wednesday.

THE REPRESENTATIVES.

House met at 10 a.m.

A couple of bills were received from the Senate.

Mr. Richards from the committee on passed bills reported several acts presented to the President.

Mr. Robertson, referring to his appointment on the committee to investigate expenses of the Marshal's office, said he had been intimately connected with that office during the recent troubles, and perhaps was responsible for some of the expenses.

The Senate bill to prevent foot binding was referred to the committee on public health.

Mr. Cluney submitted the following question to the Minister of Finance: "I wish to ask Mr. Damon for information about lot of opium shipped to Victoria several months ago, the amount shipped and also the amount received for the same."

The supplementary appropriation bill was taken up on third reading.

Mr. Winston moved to insert \$500 for the Kalihi road.

Mr. Richards moved to strike out the item of \$3000 for road from Kohala to Waimea.

A warm discussion ensued, in which the members for Hawaii and Attorney General Smith took part.

Mr. Winston moved to strike out all the appropriations for roads in the bill. The regular session was not far away, when all the roads would be considered.

Mr. Richards—Strike those out and the whole thing is left to Honolulu.

Mr. Rycroft said that would be a very bad thing to do. The Volcano road cost \$150,000 and if repairs on it now needed were not made within six months, it would cost \$15,000 to put that road in good repair. This \$5000 must go into the bill. He knew it was little use putting new roads in the bill, because the Government would not expend the money for them. But in the case of the Volcano road, it must be repaired to save money for the Government.

Mr. Winston amended his motion to except roads and bridges in Puna.

Mr. Richards thought the Government knew what was immediately needed when it inserted these items.

Mr. Winston's motion was lost, and the road items passed as follows:

Roads and bridges, Puna, \$5000;

Road from Kohala to Waimea, \$3000; Roads and bridges, Hana, \$1500; Road through Maulus gulch, \$5000.

Mr. Haia moved to insert \$1500 for a new courthouse at Kipahulu, Maui. He was supported by the Attorney General, and the item passed.

The remainder of the bill passed as it did on second reading.

Minister Smith reported bills signed by the President, the same as were reported to the Senate yesterday.

Speaker Naone appointed Mr. McBryde in place of Mr. Robertson on the committee to investigate the expenses of the Marshal's office.

Mr. Robertson moved that the bill to amend the law regulating appeals from District Justice Courts in the 2nd, 3rd, 4th and 5th Circuits be taken out of the hands of the Judiciary Committee. The committee did not know why the bill was referred back to it, and, if the House did not know the reason, the bill should be considered at once.

In the course of discussion it was stated that the Attorney-General had some information to give about the bill, and the motion was only voted for by the mover.

At 11:40 the House adjourned.

SMALL CRIMINAL LIST.

Only Six Commitments by the Honolulu Magistrate for three Months.

The following list comprises all the commitments for trial made by the District Magistrate of Honolulu to the ensuing quarterly term of the Circuit Court:

Ah Poi for housebreaking, John Montgomery, John Sullivan and Paul Volnal for larceny of a yacht, J. Kupieha for robbery, Akai Kana for larceny. As three of these six are for one act, stealing a yacht, the number of cases is only four.

Of course the criminal calendar will be swelled as usual by appeals from convictions by the District Magistrate in cases where he has trial jurisdiction.

The new "Scientific Suspenders" to wear them is to like them. Get a pair from McNerny.

Having used Chamberlain's Cough Remedy in my family and found it to be a first-class article, I take pleasure in recommending it to my friends. J. T. Foster, Westport, Cal. For sale by all dealers. Benson, Smith & Co., Agents Hawaiian Islands.

If you want your watch repaired, if you want jewelry made up neatly. If you want silver spoons, or anything in the jewelry line. H. G. Birt, at C. Gertz's store, Fort street, is your man. He was for ten years the practical watchmaker for Wenner & Co.
